-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 March 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

1. Claims 7-14 and 21-25 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, line 2, applicant claims a locking assembly with a lacking arm that engages the rail in two positions. However, in claim 5, applicant claims a locking assembly with a "single head portion" that engages apertures in the rail in two positions. It is not clear, as claimed, that the locking arm and the single head portion are the same structure.

In claim 21, applicant claims a locking cam pivotable toward the head assembly. However, as disclosed, the locking cam is mounted in the head assembly and it is not clear how it would move toward that assembly to which it is already connected.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 5-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Lindenman (PGPub 2003/0034631).

Lindenman shows a fifth wheel hitch with a pair of guide rails 16, a head assembly, an adjustment assembly 32 and a locking assembly 70-90 for releasably locking the hear assembly in different positions. The adjustment assembly includes side plates 32, 34 with a roller 36, 36', 36", mounted between the plates.

4. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Gottler (USPN 3,584,899).

Gottler shows an adjustable fifth wheel hitch with a guide rail 3, a head assembly 1, an adjustment assembly 2 and a locking assembly including a single head portion (O) engaging a first aperture with the hitch at a first position and engaging a second aperture with the hitch in a second position.

5. Claims 1-4 are allowed.

6. Claims 9-14, 24, and 25 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

7. Applicant's arguments filed March 19, 2008 have been fully considered but they are not persuasive.

Applicant argues that claims 5-8 distinguish over the prior art to Lindenman because Lindenman shows a head having two fingers and each finger engages a respective aperture in the rail, rather than one portion engaging both apertures. The examiner disagrees with applicant that the present claim language distinguishes over Lindenman. Applicant claims a locking assembly "having a single head portion" that engages both apertures in the rail. Lindenman shows a locking assembly with a single head portion (hub 70 and fingers 78, 80) that engages apertures 86, 88 in rail 16. Applicant's broad claim language is not believed to distinguish over Lindenman.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M. Boehler whose telephone number is 571-272-6641. The examiner can normally be reached on 7:30-5:00, Monday-Thursday, and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 571-272-6612. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
